# ICRISAT Dataverse Users Quick Guide

## Contents

1. Create a new user account in ICRISAT Dataverse.....	3
2. Getting Access to Specific Dataverse.....	3
3. Log in to existing ICRISAT Dataverse.....	3
4. Create a Dataset .....	4
5. Upload data files.....	6
6. Restrict/Unrestrict access, Delete files .....	7
7. Providing access terms for restricted files .....	8
8. Terms of use for the dataset .....	8
9. Sending out for review.....	8
10. Publishing Data.....	9

## 1. Create a new user account in ICRISAT Dataverse

- Kindly go to <http://dataverse.icrisat.org/>
- Click “Sign Up” on the upper right of the page (skip to Section B if you already have an account)

Sign Up

Log In

- Accomplish all the required fields (marked with a \* red asterisk).
- Read and understand the General Terms of Use. Tick the box to agree, and then click “Create Account.”

☒ I have read and accept the Dataverse General Terms of Use as outlined above.

Create Account

Cancel

## 2. Getting Access to Specific Dataverse

- Identify dataverse(s) to which you need to add datasets from below and send a request for access using the form <http://data.icrisat.org/dataverse/access-request/> with all necessary details. (skip this step if you already have access)

- You will get confirmation message in your dataverse account and then follow below

## 3. Log in to existing ICRISAT Dataverse

- Please go to <http://dataverse.icrisat.org/>
- Click “Log In” on the upper right portion of the page.

Sign Up

Log In

- Enter your Username/Email and then your nominated password. Click “Log In.”

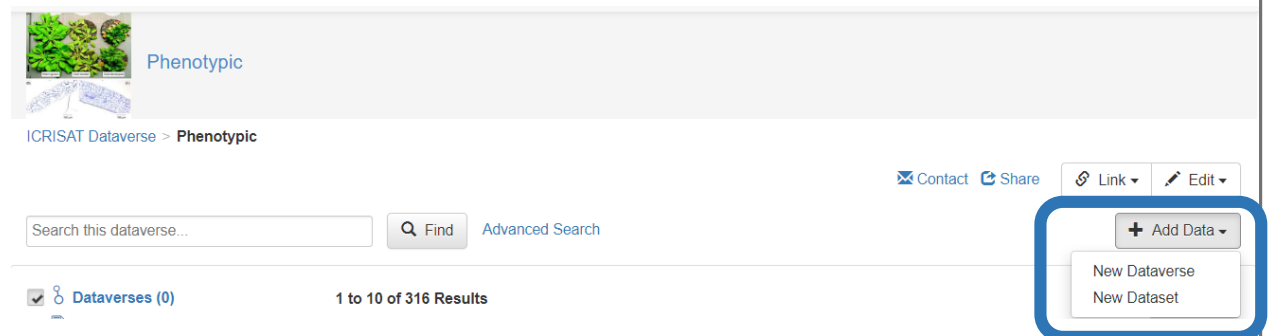

## 4. Create a Dataset

- a) Select the appropriate category the data belongs to from Phenotypic, Social Science, Spatial or Genotypic.

The International Crops Research Institute for the Semi-Arid Tropics (ICRISAT) is a non-profit, non-political organization that conducts agricultural research for development in Asia and sub-Saharan Africa with a wide array of partners throughout the world. Covering 6.5 million square kilometers of land in 55 countries, the semi-arid or dryland tropics has over 2 billion people, and 644 million of these are the poorest of the poor. ICRISAT and its partners help empower these poor people to overcome poverty, hunger and a degraded environment through better agriculture.

- b) Click on Click “+ Add Data,” selecting “New Dataset.”. Following is an example for Phenotypic data

- c) Fill in the required fields (marked with a \* red asterisk).

Please follow ICRISAT metadata guidelines while filling the metadata, refer already uploaded dataset for guidance or get back to us. (<http://data.icrisat.org/wp-content/uploads/2020/07/ICRISAT-Dataverse-submission-reference-guide.pdf> )

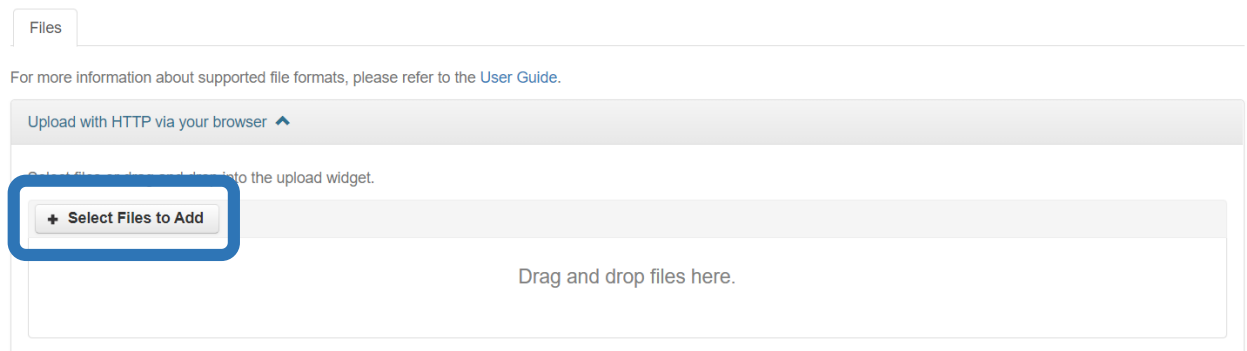

#### d) Editing metadata fields

Metadata can be added or modified to datasets once saved using the following Add + Edit Metadata button in the dataset.

## 5. Upload data files

- a) Scroll down to the “Files” tab.
- b) To add your files, click on “+ Select Files to Add” or simply drag-and-drop your files to the space provided.

- c) The list of files uploaded will appear in the space just below the upload box.
- d) One uploading is finished, rename the files if required and click “Save Dataset”

File Name: 1. Data for test1.csv

File Path:

text/comma-separated-values  
MD5: ec3efe04215bc84501ae163b16ee6d42;

Description: Add file description...

File Name: 2. Data for test2.csv

File Path:

text/comma-separated-values  
MD5: 222f63f8349ba84bdd530bcc04f4f09;

Description: Add file description...

File Name: 3. Data for test3..csv

File Path:

text/comma-separated-values  
MD5: 5c998db4c1bdc661faeb79807992f696;

Description: Add file description...

Metadata Tip: After adding the dataset, click the Edit Dataset button to add more metadata.

Save Dataset Cancel

## 6. Restrict/Unrestrict access, Delete files

- Check the file(s) that you want to modify access/delete, and click “Edit Files”
- Click on “Delete” to delete
- Click on “Restrict” to restrict access.
- Click on “Unrestrict” to allow open access.
- Click on “Save Dataset” to save.

## 7. Providing access terms for restricted files

- After saving the dataset, the file restrictions window will appear.
- State your terms of access and, if applicable, tick “Enable access request.”
- This information will be used to contact the Administrator if there are any requests to download the file(s).

A dialog box titled "File Restrictions" with a close button (X) in the top right corner. It contains two sections: "Terms of Access" with a text area and a help icon (i), and "Request Access" with a checkbox labeled "Enable access request" and a help icon (i). At the bottom are "Continue" and "Cancel" buttons.

**File Restrictions**

**Terms of Access** ⓘ

**Request Access** ⓘ ☐ Enable access request

Continue Cancel

## 8. Terms of use for the dataset

- As per the ICRISAT Research Data Management policy, all the datasets hosted in the institutional repository will be under CCBY license.
- You can refer to any of the existing data for the terms of use (download from <http://data.icrisat.org/documents/dataverse/> ) or contact us for this.

A horizontal row of four tabs: "Files", "Metadata", "Terms", and "Versions". Below the "Versions" tab is a button labeled "Edit Terms Requirements" with a document icon, which is highlighted with a blue rounded rectangle.

Edit Terms Requirements

## 9. Sending out for review

- Click “Send for Review.” The concerned curator and/or Administrator will review your study and dataset.
- The curator and/or Administrator will either publish your study or send it back to you if there are clarifications or missing information.

## 10. Publishing Data

- a) Once your data and respective metadata is approved, dataverse Admin will publish your data and you will get a notification email with respective DOI
- b) Please use this DOI in any research publication you make with this data set
